Thermal Transfer Solutions Ltd

Press Release

Thermal Transfer Solutions Ltd (TTS), a UK based converter of thermal transfer ribbons, announces the signing of a new long term strategic agreement with DNP – July 27th 2009

In an important move which affirms Thermal Transfer Solutions Ltd (TTS) as a major supplier of thermal transfer ribbons, and in recognition of the work TTS have put in to promote DNP products in the UK, the two companies have signed a long term strategic agreement for TTS to be the sole converter of all DNP thermal transfer ribbon products for the UK market.

Effective from 1 August 2009 TTS will take over conversion and supply of all DNP thermal transfer ribbons for the UK aftermarket. Current DNP customers have been advised that from 1 August 2009 they should place orders with TTS, who will be providing a full conversion & stocking service for the new 'Best in Class' range. TTS and DNP will be meeting with customers over the next few weeks to ensure a smooth transition of supply and to maintain competitive pricing arrangements.

Following DNP's acquisition of the Sony Chemicals TTR division in July last year, the thermal transfer ribbon range has been extended to include some of the World's best performing ribbon grades. TTS will now be able to add the following high performance products to their ribbon range-

TR4085+ Recognized as the World's best performing high durability wax grade

TR5080 A premium wax resin ribbon with good all round performance & durability

M292 A new high performance near edge wax resin ribbon for Toshiba Tec printers

M295+ A high performance & high speed ribbon for in-line coding printers

TTS look forward to working with the UK aftermarket to develop sales of these fantastic products. TTS will offer:

- Better conditions
- Local support
- A first class service
- Official DNP range
- Competitive pricing
