Thermal Transfer Solutions Ltd

Press Release

Thermal Transfer Solutions Ltd (TTS), a UK based converter of thermal transfer ribbons, announces that they are now able to convert and offer the full range of Ricoh high performance wax resin and resin products including B110A, the world's best performing wax resin grade – June 14th 2009

In an important move which affirms Thermal Transfer Solutions Ltd (TTS) as a major supplier of thermal transfer ribbons, and in recognition of the work TTS have put in to promote the Ricoh B110ti and B120EC products in the UK, Ricoh has opened up the whole of their product range for TTS to convert and supply to the UK market.

Effective from 1 July 2009 TTS will be adding all Ricoh grades to their product range including the B110A grade, the world's best performing wax resin ribbon. TTS will offer these fantastic product grades from stock in a wide range of sizes and will also offer very flexible minimum order quantities for special sizes.

Ricoh are widely recognized as the industry's leading producer of the best wax resin and high performance resin thermal transfer ribbons available. The Ricoh Company is one of the leading world-wide suppliers of office equipment, related supplies, digital cameras and direct thermal papers. Ricoh is a multinational company with an annual turnover in excess of GB £9 billion, employing more than 76,000 people throughout the world. Thermal Transfer Solutions Ltd looks forward to working hard to promote the Ricoh range of TTR to the UK dealer network.

The new range will include the following grades -

- B110A** - Recognized as the World's best performing high durability wax resin grade
- B110TI** - A premium wax resin ribbon with good all round performance & durability
- B120EC** - A premium resin grade for use on both flat head & near edge technology printers
- B110CR** - A premium resin grade for increased heat and chemical resistance
- B110CU** - A premium resin grade for extreme chemical resistance
- D110A** - A resin ribbon for textile printing applications – washing & dry cleaning resistance
- B120E** - A high performance wax resin grade for near edge industrial desktop printers
- B130EV** - A high speed wax resin grade for use on industrial desktop printers
- B130ED** - A premium high speed wax resin ribbon for use on in-line coding printers
